Owner's Record

The model and serial numbers are located on the bottom of the unit. Record these numbers in the space provided below.
Refer to them whenever you call upon your Sony dealer regarding this product.

Model No. SRS-NWGM30

Serial No. _____

©2008 Sony Corporation Printed in China

English

Before operating the unit, please read this manual thoroughly and retain it for future reference.

WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of electrical shock, do not open the cabinet.

Refer servicing to qualified personnel only.

To reduce the risk of fire, do not cover the ventilation opening of the apparatus with newspapers, tablecloths, curtains, etc.

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus.

Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

As the main plug is used to disconnect the unit from the mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately.

The system is not disconnected from the mains as long as it is connected to the AC outlet, even if the system itself has turned off.

Do not expose batteries or apparatus with battery-installed to excessive heat such as sunshine, fire or the like.

Notice for the customers in the U.S.A.

The following FCC statement applies only to the version of this model manufactured for sale in the U.S.A.

Other versions may not comply with FCC technical regulations.

Note
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate or reorient the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

If you have any questions about this product, you may call:

Sony Customer Information Services Center 1-800-222-7669 or <http://www.sony.com/>

Declaration of Conformity

Trade Name: SONY
Model No.: SRS-NWGM30
Responsible Party: Sony Electronics Inc.
Address: 16530 Via Esprillo, San Diego, CA 92127 USA
Telephone No.: 858-942-2230

This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION
You are cautioned that any changes or modification not expressly approved in this manual could void your authority to operate this equipment.

RECYCLING LITHIUM-ION BATTERIES

Lithium-ion batteries are recyclable.
You can help preserve our environment by returning your used rechargeable batteries to the collection and recycling location nearest you.

For more information regarding recycling of rechargeable batteries, call toll free 1-800-822-8837, or visit <http://www.rbc.org/>.

Caution: Do not handle damaged or leaking lithium-ion batteries.

WARNING

• Danger of explosion if battery is incorrectly replaced. Replace only with the same equivalent type.

• Battery may explode if mistreated. Do not recharge, disassemble or dispose of in fire.

• Do not expose the battery to excessive heat such as direct sunlight, fire or the like.

For the state of California, USA only

Perchlorate Material – special handling may apply.

See www.dtsc.ca.gov/hazardouswaste/perchlorate

Perchlorate Material: Lithium battery contains perchlorate

The validity of the CE marking is restricted to only those countries where it is legally enforced, mainly in the countries EEA (European Economic Area).

Disposal of old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

Disposal of waste batteries (applicable in the European Union and other European countries with separate collection systems)

This symbol on the battery or on the packaging indicates that the battery provided with this product shall not be treated as household waste. By ensuring these batteries are disposed of correctly, you will help prevent potentially negative consequences for the environment and human health which could otherwise be caused by inappropriate waste handling of the battery. The recycling of the materials will help to conserve natural resources.

In case of products that for safety, performance or data integrity reasons require a permanent connection with an unpowered battery, this battery should be replaced by qualified service staff only.

To ensure that the battery will be treated properly, hand over the product at end-of-life to the applicable collection point for the recycling of electrical and electronic equipment.

For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the applicable collection point for the recycling of waste batteries.

For more detailed information about recycling of this product or battery, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

Notice for customers: the following information is only applicable to equipment sold in countries applying EU directives
The manufacturer of this product is Sony Corporation, 1-7-1 Konan Minato-ku, Tokyo, 108-0075 Japan. The Authorized Representative for Europe and product safety is Sony Deutschland GmbH, Hedelfinger Strasse 61, 70327 Stuttgart, Germany. For any service or guarantee matters, please refer to the addresses given in separate service or guarantee documents.

Precautions

On safety

The unit is located on the bottom exterior.
• Before operating the system, be sure that the operating voltage of the system is identical with that of your local power supply.

Where purchased Operating voltage
All countries/regions 100 - 240 V AC, 50/60 Hz

• Use only the supplied AC power adaptor.

• The unit is not disconnected from the AC power source (mains) as long as it is connected to the AC outlet, even if the unit itself has been turned off.

• After operating the system with the AC power adaptor, disconnect the AC power adaptor from the wall outlet if the system is not to be used for an extended period of time. Just switching the I button to standby does not turn the AC power adaptor off.

• Should any solid object or liquid fall into the system, have the system checked by qualified personnel before operating it any further.

• Although this system is magnetically shielded, do not leave recorded tapes, watches, personal credit cards, or floppy disks with magnetic coding in front of the system for an extended period of time.

• Do not leave the system in an inclined position.

• Do not leave the system in a location near heat sources, or in a place subject to direct sunlight, excessive dust, moisture, rain or mechanical shock.

• Do not use alcohol, benzine, or thinner to clean the cabinet.

If the TV picture or monitor display is magnetically distorted

Although this system is magnetically shielded, there may be cases that the picture on some TV sets/personal computer sets may become magnetically distorted. In such a case, turn off the power of the TV set/personal computer set once, and after 15 to 30 minutes turn it on again. For the personal computer set, take the appropriate measures such as data storage before turning it off.

When there seems to be no improvement, locate the system further away from the TV set/personal computer set. Furthermore, be sure not to place objects in which magnets are attached or used near the TV set/personal computer set, such as audio racks, TV stands, toys etc. These may cause magnetic distortion to the picture due to their interaction with the system.

• Others

• If you have any questions or problems concerning this system that are not covered in this manual, please consult your nearest Sony dealer.

• Should any problem persist, consult your nearest Sony dealer.

Troubleshooting

Should you have a problem with your speaker system, check the following list and take the suggested measures. If the problem persists, consult your nearest Sony dealer.

Distorted sound

• Turn the volume of the source device to the point where the sound is no longer distorted. For details on volume adjustment, refer to the operating instructions supplied with the device.

• If the source device has a bass boost function, set it to off.

• If the unit is connected to a headphone jack, change the connection to the LINE OUT jack, or set the source device to LINE OUT output.

• Connect the WM-PORT jack of the "WALKMAN" or an input cord again properly to the unit.

• Make sure none of the audio components are positioned too close to a TV set.

• Replace all three batteries with new ones.

• No sound or low sound level

• Press the I button to turn on.

• Turn up the volume of the unit by pressing VOLUME + button repeatedly.

• Connect the WM-PORT jack of the "WALKMAN" or an input cord again properly to the unit.

• If the unit is connected to a headphone jack, turn up the volume of the source device.

• While the speaker is connected to a computer using the USB cable, sound is not output. Disconnect the USB cable, or turn off the computer.

• Make sure none of the audio components are positioned too close to a TV set.

• Replace all three batteries with new ones.

• Brightness of the I indicator is unstable.

The brightness of the I indicator may become unstable when the volume is turned up. This is not a malfunction.

• No radio reception is available via the headphone jack of the "WALKMAN."

Keep enough distance between the AC power adaptor from the unit and the "WALKMAN."

* Some "WALKMAN" models are not designed to allow both connection of its headphones and this unit. To listen to FM radio broadcasts via the FM tuner of the "WALKMAN," be sure to connect the headphones to the "WALKMAN." A "WALKMAN" cannot receive a broadcast properly without using headphones, since the headphone cord works as the FM antenna.

• The battery cannot be inserted, or fits too tightly in the Card Remote Commander.

The battery is designed so as not to be inserted in the wrong direction. Confirm polarity (+/-) and insert correctly.

• The brightness of the I indicator is unstable.

The brightness of the I indicator may become unstable when the volume is turned up. This is not a malfunction.

• No radio reception is available via the headphone jack of the "WALKMAN."
